## Why choose Azure Government?

All government cloud offerings are not the same. Azure Government provides:

### Government exclusivity

Only US federal, state, local, and tribal governments and their partners have access to this dedicated instance that only screened US citizens operate.

[Discover more about Azure data centers >](#)

### Broadest compliance and Level 5 DoD approval

Choose from six government-only datacenter regions, including two regions granted an Impact Level 5 Provisional Authorization. And, Azure Government offers the most compliance certifications of any cloud provider.

Azure Government for classified workloads is coming soon.

### Hybrid flexibility

Control the timing and implementation of your digital transformation. If you choose, you can keep select data and some functionality on-premises.

### Jump start innovation

Gain new, cutting-edge capabilities with the Internet of Things technologies, data analytics, and high-performance computing.
