

Microsoft Education

How IT deployment affects learning

IT staff buy, manage, and deploy education technology in school systems like yours. This research is based on surveys answered by more than 150 education IT staff, who were asked if they thought cloud-based solutions gave them enough benefits to help improve student learning outcomes. Read **The State of Modern Device Deployment in Education** report and:

- Find out how cloud-based solutions can contribute to improved student learning outcomes in your education system.
- Get the answer to how the Google Chrome Management Console compares to the Microsoft Intune for Education app.
- Learn the differences between Google and Microsoft education technology.
