

Microsoft Education

Engage students with STEM apps

Get science, technology, engineering, and math (STEM) apps to help prepare your students with the skills they'll need for the future. Check out the popular education applications in the Microsoft Store for Education, including:

- [Minecraft](#)—this edition has features students already know, plus extras only available for schools.
- [Lego EV3 Programming](#)—this app from LEGO® uses an intuitive icon-based environment and is an easy way for learners to get started with robotic technology.
- [MakeCode for micro:bit](#)—with this app, your students get easy-to-learn, block-based Microsoft MakeCode language and JavaScript to program their micro:bit.
- [Hacking STEM](#)—your students will use this app along with Hacking STEM lessons and affordable, project-based hands-on activities.
